Transmission Service

Just like changing the oil in your engine is crucial to long engine life so is consistent service for your transmission. This service removes harmful varnishes and build up from the valve body and transmission which improves shifting, performance and life of the transmission. We recommend 30,000 mile intervals and perform the following:

- Install cleaner, test drive vehicle for problems
- Flush out all old fluids
- Inspect transmission lines, mounts and cooler
- Refill transmission, Install conditioner and drive vehicle
- Recycle all fluids

Normally \$125.00 to \$135.00 depending on vehicle.
